### **ACTIVITIES DURING YOUR ATTENDANCE AT THIS CONFERENCE:**

Holding presentation in the Circulatory shock and ischemia-reperfusion session with the title; ALPPS maladaptations during induced liver regeneration.

### **IMPACT ON YOUR RESEARCH AND FUTURE COLLABORATIONS (if applicable)**

During the congress I have seen many interesting approaches to mitochondrial function evaluations that could be used in future studies. Also, I have met several scientists of the MitoEAGLE workgroups. Hopefully, I can be of help in the future collaborations with high throughput analytics of microscopic images, as well as Initiatives of future collaborations would be extremely fruitful.
